**Tanya Vadala**

*Pharm.D.*

Medication Safety Pharmacist IPRO

**Tuesday, March 16, 2021**

**2-2:30 pm ET/ 1-1:30 pm CT**

#### Event Description:

An adverse drug event (ADE) is an injury resulting from medical intervention related to a drug and they:

- Account for an estimated 1 in 3 of all hospital adverse events.
- Affect about 2 million hospital stays each year.
- Prolong hospital stays by 1.7 to 4.6 days.

**Join this interactive event to learn more about ADEs and how you can take steps to prevent them!**

Hosted by Alliant Quality, the quality improvement group of Alliant Health Solutions (AHS), the Medicare Quality Innovation Network-Quality Improvement Organization (QIN-QIO) for Alabama, Florida, Georgia, Kentucky, Louisiana, North Carolina, and Tennessee.

#### Learning Objectives:

- Define Adverse Drug Event (ADE)
- Identify ADE High Risk Medication Classes
- Review common ADEs
- Examine patient cases to determine if the cases were ADE related
