### Establishing a Robust Pain Management Initiative Within Your Hospital

**Register Here:**  
<https://bit.ly/2RZJYLo>

### Featured Speakers:

**Phyllis Hendry, MD, FAAP, FACEP**  
Professor of Emergency Medicine and Pediatrics at the University of Florida College of Medicine

**Brittany Johnson, PharmD, CPh**  
Pain and Palliative Care Stewardship Pharmacist at UF Health Jacksonville

**Tuesday, July 27, 2021**

**2-2:30pm ET | 1-1:30pm CT | 11-11:30am PT**

### Event Description:

Established in 2014, the Pain Assessment and Management Initiative (PAMI) at the University of Florida College of Medicine – Jacksonville initially intended to improve pain management within emergency settings. PAMI has since expanded to address pain management needs across the entire hospital system setting, including inpatient and outpatient care. Learn from the PAMI team about how to build a multidisciplinary team, establish buy-in from busy providers and produce patient education resources all tailored to your hospitals' needs.

### Learning Objectives:

- Identify key hospital staff to build an engaged network of pain management champions.
- Describe PAMI patient education resources suitable for a variety of care settings.
- Understand the key components to developing a patient discharge toolkit.

**Who should attend?** Quality, Infection Preventionists, Pharmacy, Antimicrobial Stewardship Leaders, Laboratory and Physicians

Hosted by Alliant Quality, the quality improvement group of Alliant Health Solutions (AHS), the Hospital Quality Improvement Contractor (HQIC) under contract with the Centers for Medicare & Medicaid Services (CMS), an agency of the U.S. Department of Health and Human Services.

### About Hospital Quality Improvement Contractors (HQIC):

The HQIC is a four-year program dedicated to improving behavioral health outcomes with a focus on decreased opioid misuse, patient safety with emphasis on reduction of harm, and care transitions with a focus on high utilizers. HQIC supports rural, critical access hospitals and hospitals that are low performing and serving vulnerable populations.
